Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn Packet Cluster Network, K4CEF & the Southeastern Cluster Group, WU1F, WB3JFS, WB3LHD, WK3N, KJ3Q, WN4KKN/6, N8HUR and AK0M for the following DX information.

9M6, EAST MALAYSIA. Look for Saty, JE1JKL, before the CQ WW CW DX Contest as 9M6NA and active on 80 and 160 meters (1806 or 1826 kHz). He will also have a 2 element beam on 40 meter.

A3, REPUBLIC OF TONGA. A35KB has been active on the 40 DX Net on 7184 kHz around 0700z. QSL to FR. Kevin Burke, Box 1, Nuku Alofa, Tonga.

HS, THAILAND. LLOYD and Iris Colvins are now active from the Thailand signing HS0ZAP. They have been heard on or around 14228 and 14030 kHz between 1200 to 1500z.

J3, GRENADA. Last week's bulletin mentioned a YL DXpedition to VP2V-land, well, this same group will be traveling to J3-land. They will be active from November 18th to 26th. They are still waiting for their callsign from Grenada. KU7F has asked that all QSL's go to VE7YL.

KH7, KURE ISLAND. Last week we reported Rick, KH6JEB, was heard saying he will be on KH7 around Christmas time. It seems Rick will be going there earlier before the end of the month or first part of December.

S2, BANGLADESH. Anxious DXers continue to wait for this one to become active. Last report was that Jim, VK9NS, would be leaving November 20th. It will be a shame if Jim does not get to operate after all the effort he has put into this operation. This is one DXer who has patience and stamina. It was reported on the INDEXA Net that the equipment donated by them has arrived in Bangladesh and is in storage.

SV/A, MOUNT ATHOS. The following has been reported by Denny, GW3CDP, but the information has not been verified by the ARRL DXCC Desk. Reports by Denny, GW3CDP, (DX net controller) that all amateur radio activity has been suspended by the Father Superior who is the head of all the monasteries from Mount Athos. The reason for this is that Father Superior has written to the ARRL telling them that DJ6SI had no permission to operate from Mount Athos and the ARRL approved his operation. Denny also stated that they will continue send out QSL cards for past contacts. The suspension started November 9th and will last until ARRL resolves the problem. Remember, none of this information has been verified, only reported by GW3CDP.

XX9, MACAO. Albert, XX9AS, is being heard often around 14200 kHz from

1200 to 1330z. QSL via N6LVY.

ZP, PARAGUAY. Look for Trey, WN4KKN, before and after the CQ WW CW DX Contest operating on the WARC bands and low bands as WN4KKN/ZP5. QSL via AA5BT. During the contest he will be signing ZP0Y; QSL to ZP5JCY.

STATIONS TO LOOK FOR DURING THE CQWW CW DX CONTEST, November 23-24.

(List put together by AK0M, OPDX, QRZ DX and other various sources.)
